FCSVA understands that everyone experiences emergencies or disruptions to their daily schedule. As foster parents, it is crucial to have a back-up plan set in place for your foster children if these situations occur. FCSVA is happy to help when needed and if available, but our foster parents are required to have a plan set in place. Please keep the following questions in mind when selecting an occasional care provider.

- Does this person have a flexible schedule?
- Does this person have the ability to leave their job to assist with helping with the child? (example, picking them up from school if they are sick?)
- Can this person assist with transportation to appointments or activities?
- Can this person help with before and/or after school care?
- Are you comfortable asking this person to complete background checks, as well as their family members?
- Do you know what their schedule is like and would be able to fit child care into their day?
- Does this person know you have selected them as an occasional care provider?

In case of needing assistance caring for your foster child/ren, the following back up care plan will be followed:

Please identify a family (name, address and phone number) that you can use, in case of occasional child care needs (grocery store, dinner, babysitting, etc):
